

# **Maddock Construction Equipment announces Significant Investment in Maddock Mills & Ditchers**

**For Worldwide Release: February 15, 2018  
Positioning Maddock for Future Growth**

**Bloomington, Indiana** – Maddock Construction Equipment LLC., a rapidly growing designer and manufacturer of mobile construction equipment and attachments is pleased to announce a significant investment in Maddock Mills & Ditchers.

“With the recent addition of Eric Larson to the position of General Manager, we are pleased to announce a significant investment in the expansion of Maddock Mills & Ditchers,” noted John Goode CEO of Maddock Construction Equipment, LLC.

“Originally, founded as a designer and manufacturer of asphalt recycling equipment for local government agencies, Maddock Construction equipment has grown their product line to include unique ditching and milling equipment products. Over the years we have provided equipment for state highway departments, county highway departments, municipalities, excavation contractors, paving contractors, concrete contractors and demolition contractors. In 2018, we now take the next step in the growth and evolution of Maddock Mills & Ditchers with a significant investment in six key growth and customer focused areas”, added Goode.

To support our global focus on expanding our dealer network and providing the best solutions for the milling and ditching market, Maddock is supporting their expansion with investment in:

1. Dealer support
2. Product development
3. Infrastructure
4. Manufacturing support
5. Service Support
6. Sales

## **About Maddock Construction**
